### Owner Obligations

The owner acknowledges that they are aware that the CAT III system shall help protect the vehicle against rust or corrosion only for so long as it functions electronically (periodically checking that the unit is functioning ie the green light is flashing or solid, and the coupler pads are still attached).

The owner acknowledges that ENDRUST Rustproofing can only protect their vehicle against rust or corrosion for so long as the product remains intact, un-damaged and fully covering the metal substrate

where first applied. Failure to repair damaged rustproofing within a reasonable period will void this warranty.

The owner accordingly undertakes to have the vehicle inspected and checked that the rustproofing is fully intact and has not been compromised in any way. Details of each inspection must be recorded, signed and stamped below, at Brookvale Auto Centre every 12 months from date of application. (plus or minus within 30 days in each case)

It should be noted that the brown stain (ferric oxide) that develops on and around some paint chips is not rust as such and should be cleaned and painted at the consumer's earliest convenience.

**Limitation of Liability**

The total cost of repairs during the Corrosion Warranty period is limited \$2,500- with a maximum of \$500- per any one claim. The corrosion warranty does not cover costs incurred due to the loss of use of the vehicle, rental car expenses or any other incidental or consequential loss or damages.

**Warranty Claim Procedure**

The owner should first confirm that the claim situation is not covered by an enforceable Vehicle Manufacturer's Warranty. If the owner still considers they have a valid claim under this warranty, they should contact Brookvale Auto Centre within 30 days of becoming aware of the claim situation. Brookvale Auto Centre shall not be held liable for any repairs undertaken by the owner without its prior written consent.
